Front-End Developer | HTML, CSS, JavaScript

Profile Summary

Front-end developer with a strong focus on building responsive, user-friendly, and visually appealing websites. Skilled in transforming ideas and design concepts into functional web pages using HTML, CSS, and JavaScript. I am currently pursuing Electrical and Communication Engineering at Adama Science and Technology University, with a strong passion for software and web development.

Technical Skills

• Languages: HTML5, CSS3, JavaScript (ES6)
• Design: Responsive Web Design, Flexbox, CSS Grid, Animations
• Tools: VS Code, Git & GitHub, Chrome DevTools
• Other Skills: Debugging, Cross-browser compatibility, UI/UX basics

Projects

1. Note App

- Built a web-based note-taking application using HTML, CSS, and JavaScript.
- Features include creating, editing, and deleting notes, with a clean and intuitive interface.

2. To-Do App

- Developed a dynamic to-do list app that allows users to add, mark, and remove tasks.
- Implemented local storage so tasks persist across sessions.

3. Personal Portfolio Website

- Designed and coded a responsive portfolio website to showcase projects and skills.
- Includes smooth navigation and transitions, interactive sections, and visually appealing layouts.

4. Recipe Finder

- Created a recipe search application using JavaScript to fetch data from an API.
- Users can search recipes by keywords and view detailed instructions.

5. Image Search Engine

- Built an interactive image search tool using an external API.
- Implements responsive grid layouts and dynamic image loading for seamless browsing.

6. Color Palette Generator

- Developed a tool that generates color palettes for designers and developers.
- Users can copy hex codes easily, with a clean and intuitive UI.

Education

B.Sc. in Electrical and Communication Engineering
Adama Science and Technology University
(Expected Graduation: June 2028)

Career Goals

To grow as a front-end developer and expand into full-stack web development. Passionate about clean UI design, smooth user experiences, and building efficient web applications.

Soft Skills

• Detail-oriented
• Strong communication
• Reliable and consistent delivery
• Self-learning and adaptability
